

## Quadrogrip®

HANDLES SQUARE BALES IN A PROFESSIONAL WAY

Quadrogrip is the best implement on the market for handling of square and round bales. The implement arms are mounted on 350 mm wide, extremely stable sliding plates, which move along the main frame. You can lock either the left or the right arm and this will help when stacking. The sliding runners are serviceable and manufactured in high-quality polyethylene and do not require lubrication. The sliding surfaces are vertical to stop the dirt from sticking. The result is reduced friction, silent movements, minimal wear and longer service life.
